- PIC-DMK:** In-Ceiling Detector Mount Kit
PIC-DMP: In-Ceiling detector Mount Pole
PIC-DRI: In-Ceiling Detector Remote Indicator

Product Overview:

The Pertronic In-Ceiling Detector Mount Kit and Detector Mount Pole together provide a convenient method to allow detector coverage in an above-ceiling location where the mandatory access to the detector would be otherwise difficult. The kit has 4 main parts, The Cover Plate, Pole Base, Ceiling Bracket and Detector Mounting Bracket. One or more 1m poles are required depending on the installation requirement.

A universal detector base bracket allows the user to mount a base from most detector manufacturers. Either conventional or analogue detectors may be used with their respective detector bases. An available Remote Indicator provides visual alarm indication at the ceiling for a concealed detector.

Features:

- Allows detector mounting height up to 3 metres
- 1 metre poles available separately
- Universal detector mount bracket compatible with analogue or conventional detector bases
- Kit includes spanner for pole nuts
- Optional Remote Indicator mounts to pole base fitting
- Pole base fitting locks tightly into ceiling bracket
- Spring clips allow cover plate to easily snap to pole base
- Supplied with choice of two wordings for the visible label

Specifications:

- 🔧 Ceiling aperture: 145-155mm (eg: 152mm hole-saw)
- 🔧 Cover Plate diameter: 183mm
- 🔧 Detector mount pole length: 1m
- 🔧 Detector mount pole weight: 20gms
- 🔧 In-Ceiling Detector Mount Kit weight: 1.1kg
